

Retail LED Dimming

“Adding LED Lights and dimming capability allows us to create the perfect environment to showcase our products.”

Project Requirements:

- 600 Square foot French Pastry shop
- Install Led strips with dimming capability in displays to add visual appeal to products

Wired - non Illumra Solution:

- 7 days to pull wire & install LED lights, and repair walls and cabinets
- Material costs - new wire
- Repair work on ceiling and cabinets
- Need many switches to controls loads
- Disruption of workplace during business hours

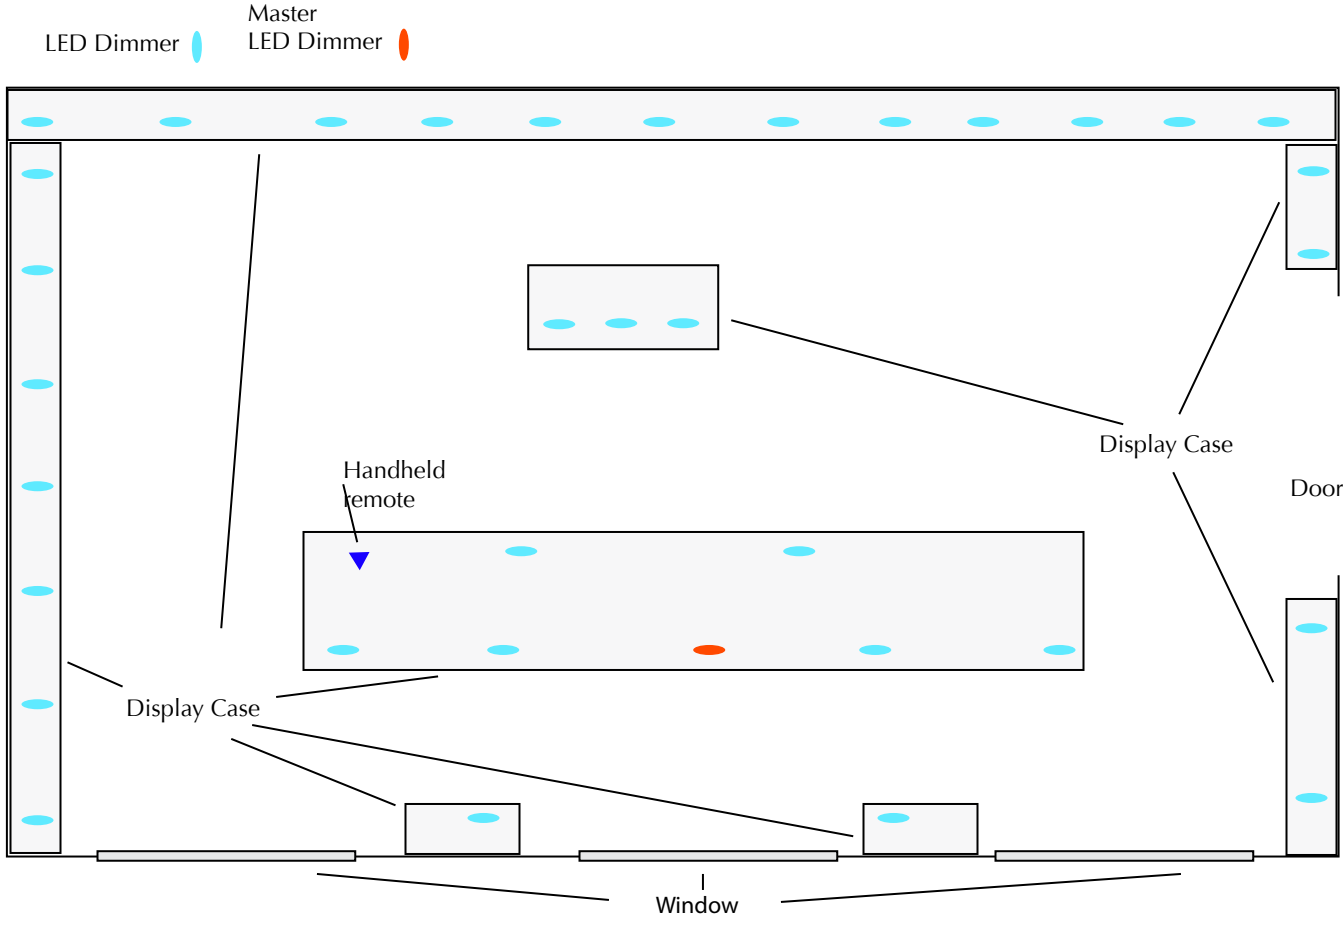

A Better Solution

The ILLUMRA Wireless Way

- 3 days to install LED lights and wireless controls
- No disruption of workplace during business hours
- Cut install costs by 30%
- Convenience
- Need only one switch to control loads

Retail Dimming

System Components

LED Dimmer
E3X-D02FP-M,
E3X-D02FP
(Qty 1 Master,
34 slaves)
